Rejoinder to James Arnt Aune

On “Rhetorical Incorrectness?”

*Leland B. Yeager*

I appreciate Professor Aune’s good-natured response. Aune does not ask me, nor do I see any need, to withdraw anything I wrote. His response does supplement the clues to his thinking that appeared in his book. He works less with economic analysis than with noble ideals and good intentions and with the suspicion that his adversaries may lack these virtues. His response also offers me openings to elaborate on points made in my review—and also to raise some major quibbles. However, I’ll restrain myself. Why drag the tedium out?
